

June 9, 2009

Emerald Bay Municipal Utility District
155 La Salle Drive
Bullard, Texas 75757

Dear District and CCN Residents:

The District is pleased to present its third annual Consumer Confidence Report (CCR). This report, while published in June 2009, reflects the calendar year 2008. This report, along with previous reports, is also available for your review at the District web page. <http://www.emeraldbay-tx.gov/report.htm>

The Consumer Confidence Report is a state mandated report and by law must contain certain subject matter as prescribed by the Texas Commission on Environmental Quality (TCEQ). It is intended to insure that consumers of public water are informed as to the condition of their public water supply. Required information relating to public education, where your water comes from, public participation opportunities, and testing results supplied to the district by the TCEQ are included in this report.

We are proud to report that as of this date, we have had **no** positive coliform or fecal coliform results since startup in 2006. You will also notice that the **“Results of Testing”** section of this report contains some test data from years 2007 and some from 2008. Data from the year 2007 is holdover data. The TCEQ does not perform all tests annually, and therefore the 2007 data did not change this year. The areas that show the year 2008 are updated data and/or newly added data.

On a final note, I would like to take this opportunity to personally acknowledge the following homeowners for assisting the District with the mandatory EPA lead and copper tests that we have been conducting over the last year. Their help and cooperation in completing these tests is sincerely appreciated.
